Format: **Zoom**

To register, complete this [form](#), or contact:
Catherine Rees at catherine.rees@midhosp.org,
or at **860-358-3034**.

Currently, Black, Indigenous and People of Color (BIPOC) and Latino/a/x individuals are extremely underrepresented in health care professions in the United States, which contributes to health inequities and disparities.

To address this lack of representation, Middlesex Health is offering a Medical Explorers program for BIPOC and Latino/a/x high school students who live in Middlesex County and are interested in learning about a variety of health care fields. Medical Explorers will interact with health care professionals by following a virtual clinical simulation case through the hospital system.

The Middlesex Health Medical Explorers Program is an initiative under the Middlesex Health DRIVE (Diversity, Respect, Inclusion, Value, Equity.) Change Action Committee.

DRIVE Change

Diversity. Respect. Inclusion. Value. Equity.
